INTRODUCTION TO AVR PLATFORM

AVR Platform is based on EASI concept making Immersive Learning as **Effortless, Affordable, Self-Service** and **Interconnected**

AVR Platform allows for rapid development, deployment and adoption of AR/VR solutions with following approach:

Faster Learning – Experiential Training provides real-time feedback and improves the efficiency of skills transfer, increased knowledge retention and better captures enterprise knowledge within institute/organization

Real-time Contextual Knowledge Injection – With advanced AR technology, knowledge directly relevant to the task at the hand can be displayed right in front of a user's eyes resulting in a higher quality of work and improved learning

Safety – Dangerous or difficult to replicate scenarios can be safely simulated in a VR/AR environment allowing students/trainees to repeatedly practice crucial scenarios while preventing damage to equipment and avoiding bodily harm

Greater Engagement – Experiential Training requires the student/trainee to participate in the exercise resulting in higher retention as this by passes boredom and poor classroom habits that accompany traditional teaching

Assessment – Students are evaluated based on their performance on the relevant grades and this data is transmitted to an institute's internal record keeping systems for certification and/or administrative action

AVR PLATFORM FEATURES

1. **Cloud-Based** - Develop, manage, access, host, and distribute AVR applications anywhere with internet connection
2. **CAD/Model & Data Import** - CAD, PLM, and scanned models can all be imported, as well as data (IoT, GIS) and other media
3. **User-Generated Interaction Creation** - The AI-supported non-programming-based interaction creation is easy to use regardless of experience
4. **Global Publishing** - Support for 30+ devices ranging from Android and iOS smartphones to VR headsets from brands such as Oculus and Vive to AR glasses including ODG and Microsoft HoloLens
5. **Data Management** - Tools like assessments, analytics, user profiles, and LMS integration all help users get the data they need
6. **Content Integration** - Content and data can be managed using enterprise systems, streaming, IoT and AI capabilities

[Back to login](#)

1. When you are trying for **Free**, you will need to register and agree to the **Terms and Conditions** and then Proceed with Sign up option, post which you can login to the Platform

2. If you are registered user and have forgotten your password, you can click on **Forgot Password** option and enter your email ID and Reset password link will be sent to your registered email address and you can reset your password using the link provided in the mail you get and login to the Platform

DESKTOP LOGIN

The screenshot shows the 'Sign In' page of the AVR Platform. It features a dark red background with white text. The 'Sign In' title is at the top left. Below it is a form with two input fields: one for email (containing 'vaibhav.shukla@eonreality.com') and one for password (masked with dots). A 'SIGN IN →' button is below the password field. To the right of the password field is a link for 'Forgot Password | Can't access your account?'. Below the password field is a link for 'Not a Member? - Start for Free'. At the bottom, there are two social login options: 'Sign in with Google' and 'Sign in with Facebook', separated by an 'OR' label. Numbered callouts are placed over the form: 1a points to the email field, 1b points to the Google login button, 1c points to the Facebook login button, 2 points to the 'Forgot Password' link, and 3 points to the 'Not a Member' link.

You can access AVR Platform as either of the two users:

- Individual user for evaluation purpose
- Registered institute user (provided you've been assigned license by your institute)

1. When you are logging into AVR Platform for the first time, you need to register/Sign in. You can do it by using either of these ways:
 - a. Any of your email ID by registering it
 - b. Your Google account
 - c. Your Facebook account or
2. Evaluation Users can “Start for Free” and you will access AVR Platform as a Freemium User. Under this Freemium account, you can access the wide variety of Assets and can create **5 (Five)** Free Lessons
3. If you have issues logging in, you can reach out to our Support team by clicking **Can't access your account?** option

DESKTOP | LANDING PAGE

The screenshot shows the desktop landing page of the EON Reality platform. The top navigation bar is dark purple with five main navigation items: 1. Hamburger Menu (three horizontal lines), 2. LIBRARY, 3. MY WORKSPACE, 4. CREATE LESSON, and 5. Profile Menu (user icon with a dropdown arrow). Below the navigation bar, the page is divided into two main sections. The left section is the 'Library' sidebar, which includes a search bar and a list of categories: ALL CATEGORIES, AERONAUTICAL ENGINEERING, ANIMAL LIFE ON EARTH, ASTROPHYSICS & ASTRONOMY, AUTOMOTIVE ENGINEERING, BIOLOGY, BIOLOGY AND MEDICAL, BOTANY, and CHEMISTRY. The right section is the main content area, which displays a grid of lesson thumbnails. Each thumbnail has a title and a small '3D' or '360' icon. The thumbnails shown are: PRO NHL - BEHIND THE SCENES OF LOCKER ROOM, THE JEWEL OF MUSLIM ART IN INDIA, 国际空间站 CHINESE, F-16D FALCON STARTUP PROCEDURE, MEDIVATOR- REPLACE CHANNEL PUMP, SIEMENS MRI MEDICAL SCANNER MAGNETOM TERRA, CRIOSPHINX, and NEW TEST LESSON. The page is designed to be user-friendly and intuitive, with clear navigation and a focus on 3D content.

AVR FOR MAGIC LEAP (AVR ML)

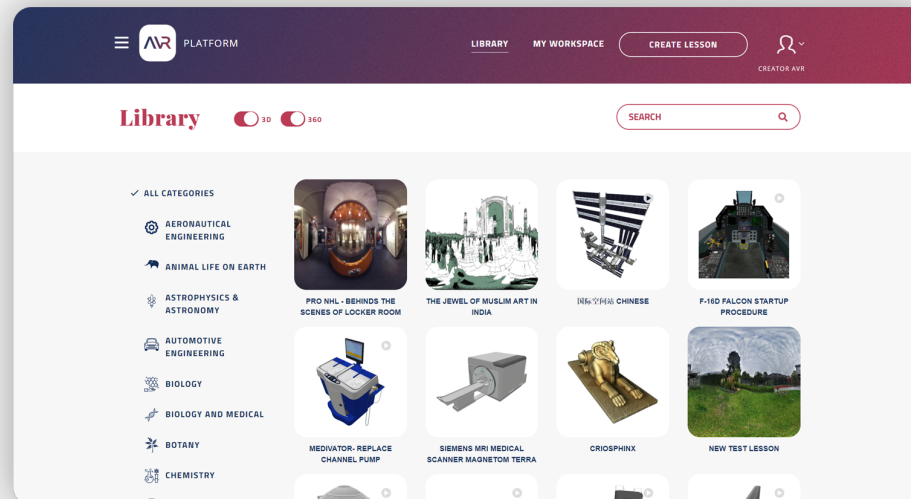

AVR ML provides your lessons from the AVR Platform on your Magic Leap device

iOS

Android

Windows

It allows you to **Play** and **Manage** your Lessons in

- Mobile - AR
- Mobile - VR
- Windows

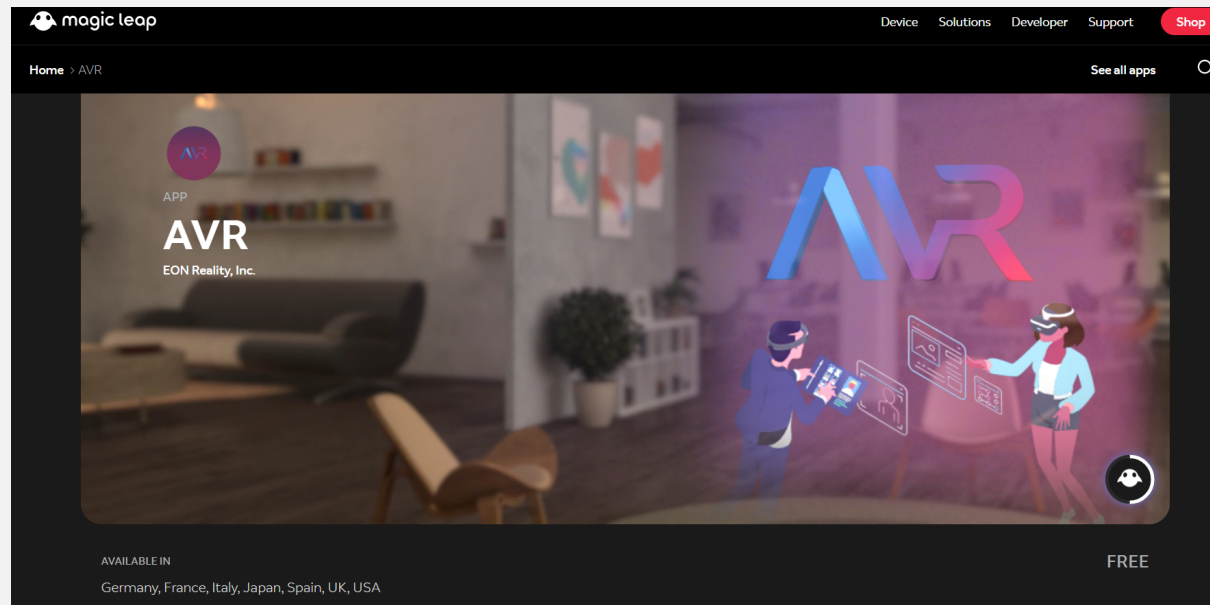

AVR ML - APP INFORMATION

AVR ML can be found on Magic Leap World (Magic Leap's app store) in Germany, France, Italy, Japan, Spain, UK and USA.

<https://world.magicleap.com/en-us/details/com.eonreality.lumin.avr.public>

NOTE If you can't find AVR on Magic Leap World, please check to see if the proper country is set on your account.

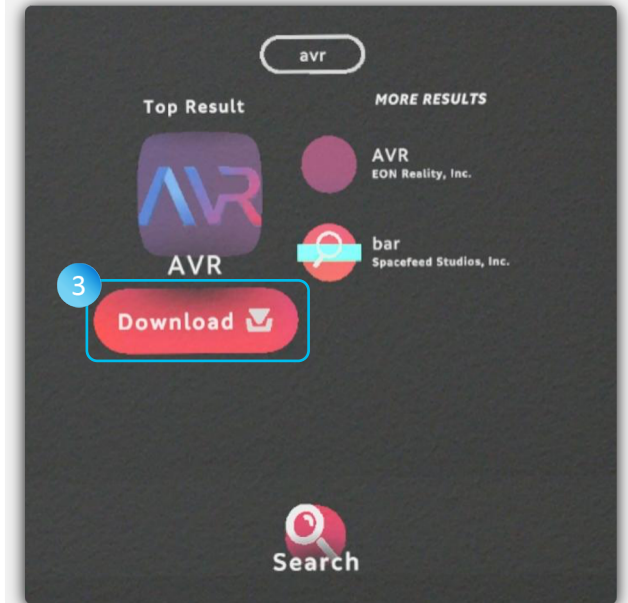

<https://www.magicleap.care/hc/en-us/articles/360030876972-Can-t-See-Apps-in-Magic-Leap-World-Set-Home-Country->

AVR ML - APP INSTALLATION

AVR ML can be searched with the keyword 'avr' from [Search](#)  in Magic Leap World.

1. Click Search button
2. Type and search 'avr'
3. Download and install 'avr'

AVR ML - DEVICE WORKING CONDITIONS

Magic Leap device must be connected to Wi-Fi in order to access lessons on AVR platform.

- Enough battery charge
- Single Controller

Indoor use recommended

TIP

Magic Leap 1 implements a near clipping plane to minimize occurrences of discomfort for users that can occur when they focus on virtual content that is too close to them.

Currently this near clipping plane is set at 37cm (14.57 inches) from the device.

WEAR IT RIGHT (ML DEVICE)

Proper Fit

Incorrect Fit

Please wear the glasses properly in order to avoid insufficient field of view experience.

Keep in mind that it shouldn't rest on your ears.

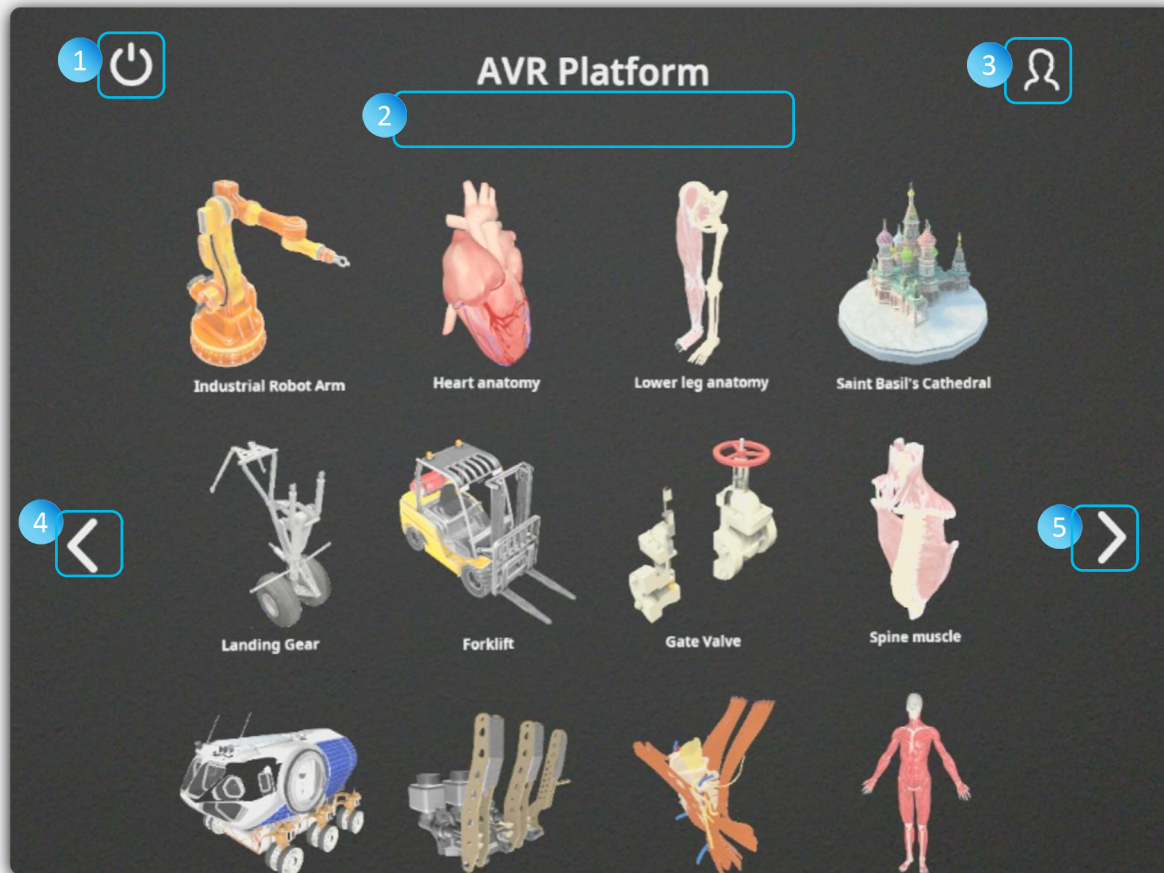

AVR ML LOBBY | FREEMIUM ACCESS TO LESSONS

Browse and launch from your institute's lesson list on Creator AVR in the lobby. AVR ML provides several free lessons for first-time users without AVR authentication.

1. Exit button
2. Institute name (if signed in)
3. Sign-in button
4. Previous list button
5. Next list button

TIP

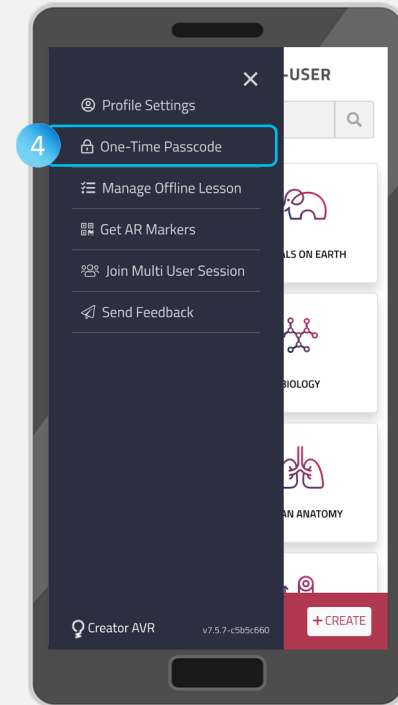

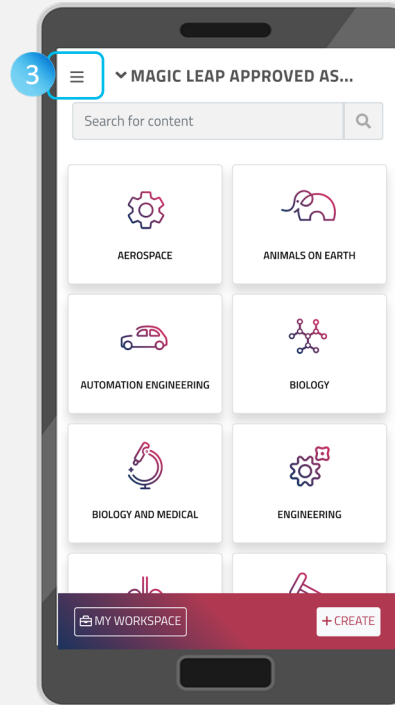

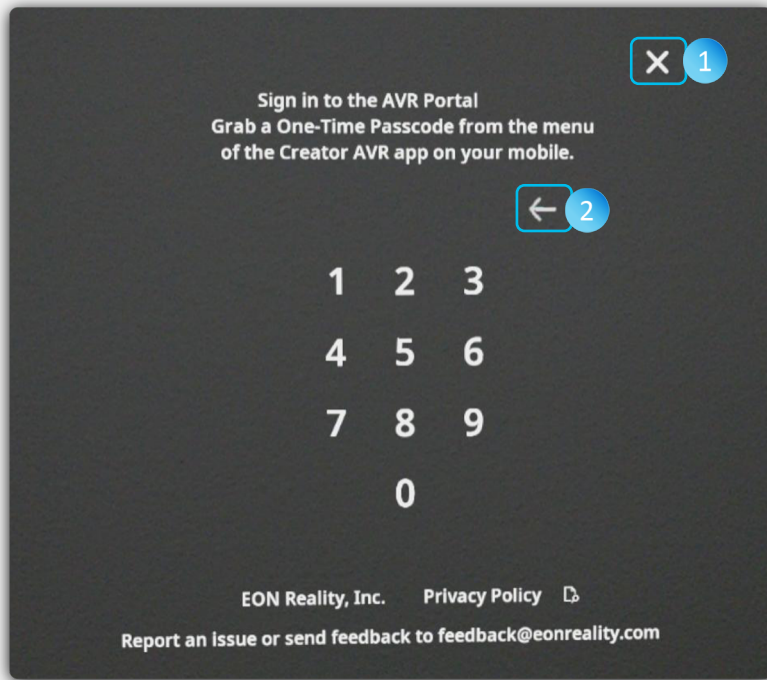

When you click the Controller Home button, the lobby moves to the direction you're looking.

SIGN IN | LOBBY

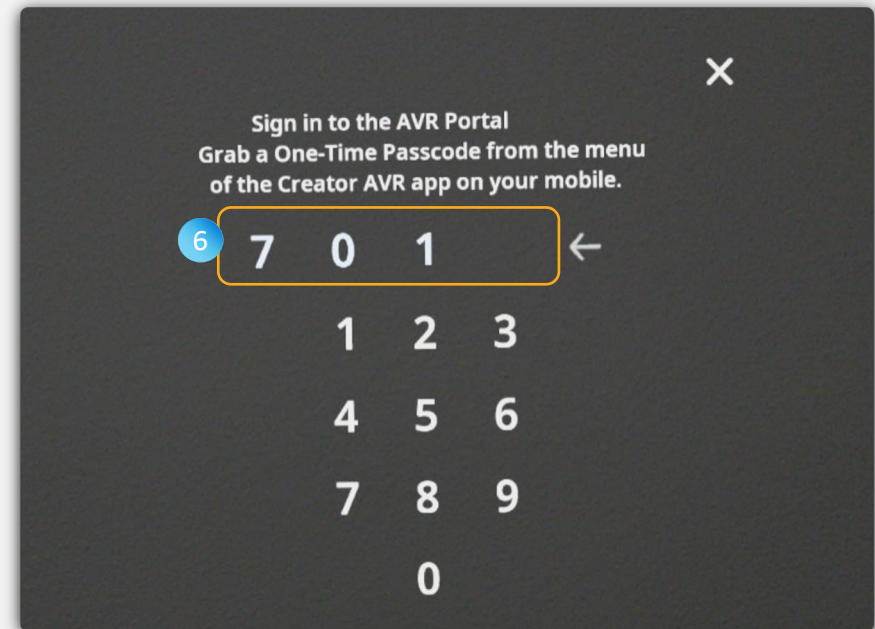

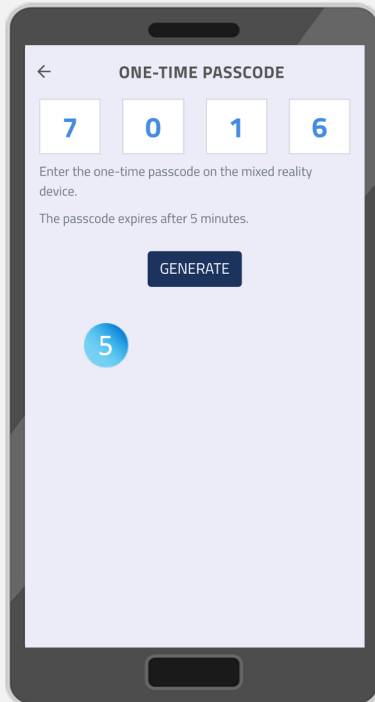

If you want to access the lessons of your institute, click the Sign-in button  and fill in the 4-digit code from the Creator AVR mobile app.

1. Go back to lobby main and load free lessons
2. Delete a number
3. Main dropdown menu
4. One-Time Passcode menu

SIGN IN | LOBBY

One-Time Passcode should be generated automatically.

5. The code expires after 5 minutes. A new passcode can be created by clicking 'GENERATE' button
6. Use the One-Time Passcode on AVR ML

SIGN IN | LOBBY

a. After successful Sign-in

Once sign-in is successful, you can see the following with the lesson list of the selected institute

1. Institute name
2. Main Menu button

b. After incorrect Sign-in

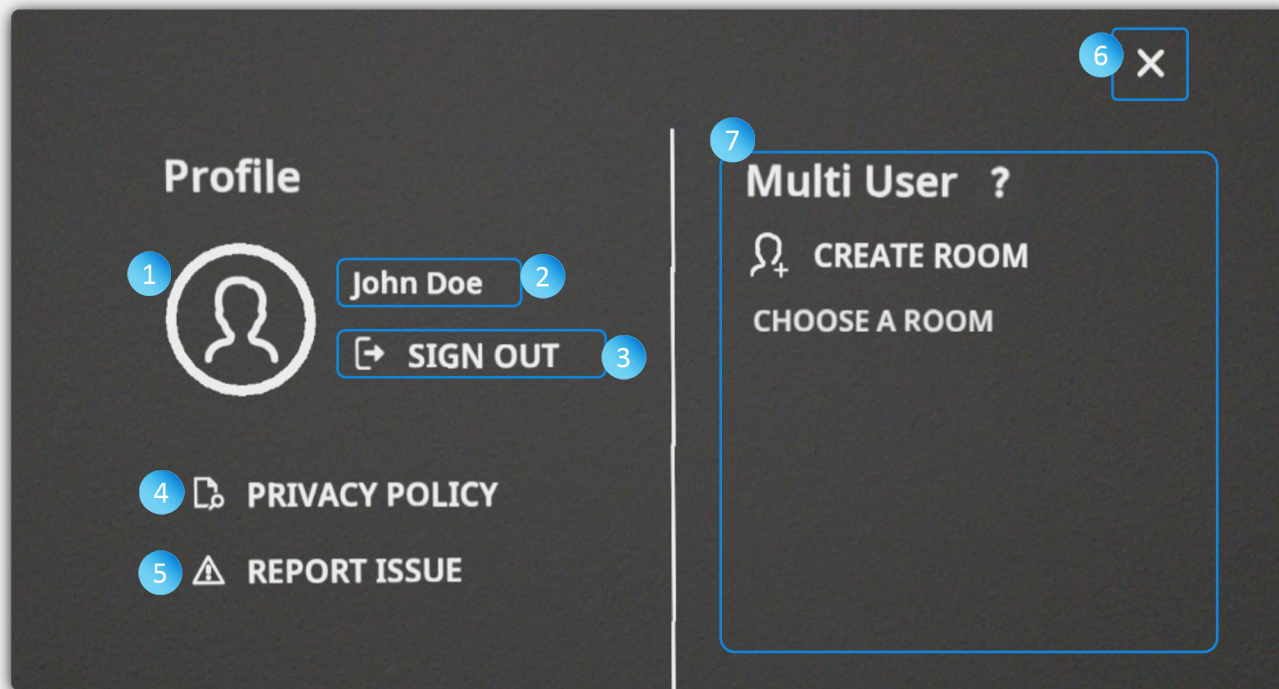

Please re-check the One-Time Passcode on your Creator AVR mobile app and try again.

NOTE One-Time Passcode expires after 5 minutes. So please try to generate it again after that.

LOBBY MENU | LOBBY

User Profile and Multi-user connection can be managed from lobby menu within the main menu. 

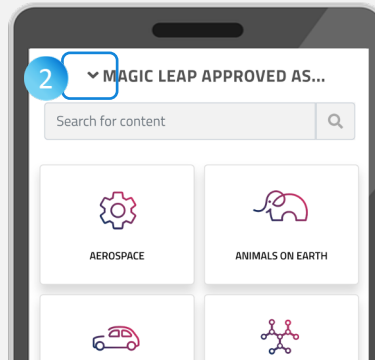

1. User Photo
2. Username
3. Sign-out button
4. Privacy Policy button
5. Report Issue button
6. Close and go back to lobby
7. Multi-user related UI (will be covered in Multi-user section)

SWITCH INSTITUTE | LOBBY

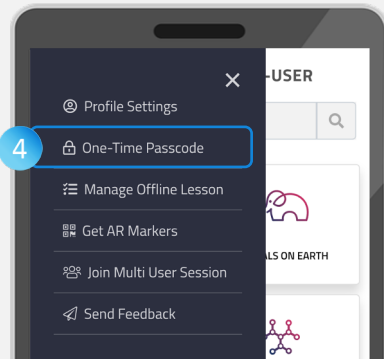

1. Sign Out

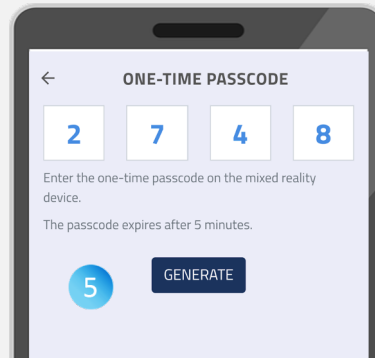

2. Expand Institute list

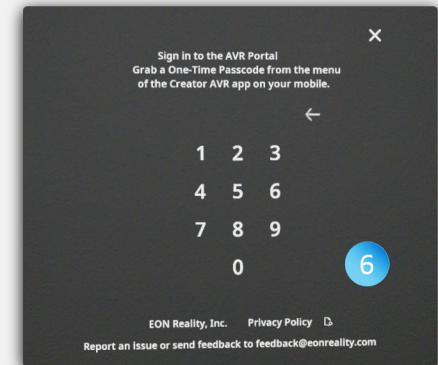

3. Switch Institute

4. Go to One-Time Passcode

5. Get a new code

6. Sign-in with new code

SWITCH ACCOUNT | LOBBY

If a Magic Leap device is to be shared with other users, please sign out before handing it over so the other user can use the same Magic Leap device with their own code obtained from Creator AVR mobile app.

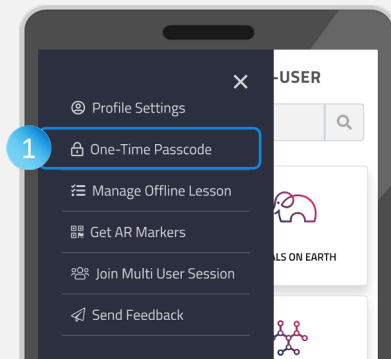

User A

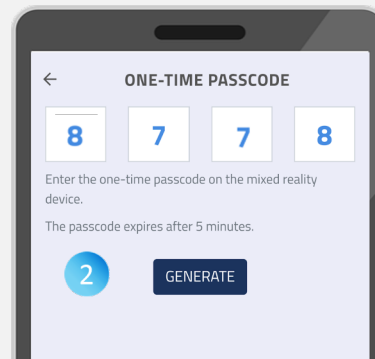

1. Sign Out

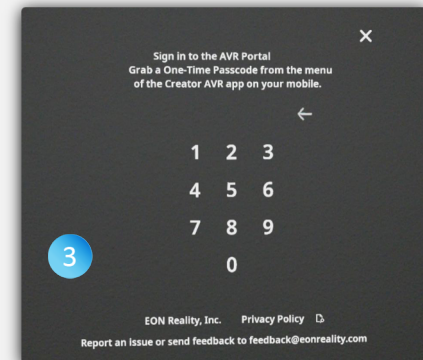

User B

1. Go to One-Time Passcode

2. Get a new OTP

3. Sign-in with the new OTP

QUIT APP | LOBBY

AVR ML can be terminated by clicking Quit App button 

1. Quit App button
2. Cancel and go back to lobby main
3. Confirm to quit

AVR ML CONTROLLER INTERACTIONS

The Magic Leap Controller has several inputs.

1. Bumper
2. Home
3. Touchpad
4. Trigger

TIP

If the controller doesn't respond, you can turn it off by holding Home + Trigger for a couple of seconds
Taking a Photo or Video can be done by pressing Home + Bumper at the same time

CONTROLLER INTERACTIONS | IN LESSON

No	Interactions	Buttons	How
1	Move Object	Trigger	Point an object and hold Trigger Move it and release Trigger
2	Move Object Group	Bottom of Touchpad	Touch on Bottom of Touchpad Move the all the objects and release
3	Scale Up/Down	Left/Right of Touchpad	Touch on Right of Touchpad to scale up Touch on Left of Touchpad to scale down
4	Zoom Down Sub-Group	Bumper	Point an object and press Bumper
5	Zoom Up Parent-Group	Home	Press Home
6	Play Audio Annotation	Trigger	Point audio annotation and press Trigger
7	Play Video Annotation	Trigger	Point video annotation and press Trigger
8	Place cutting plane	Trigger	While activating cutting plane, move Controller Press Trigger where you want to place cutting plane

**TIP**

Available interactions per use case will be overlapped on your Controller

NOTE

Pressing Home for 5 secs will result in suspending AVR ML and move to Magic Leap home. (Not recommended from the app)

RADIAL MENU INTERACTIONS

No	Interactions	Buttons	How
1	Place Radial Menu	Trigger	Direct Controller Press Home button where you want to place Radial Menu NOTE Radial Menu will be placed 1 meter from Controller
2	Click each button	Trigger	Press Trigger on a button as you want

1. Xray
2. Explode *
3. Annotation

Multi-user mode

Single-user mode

1. Multi-user indicator  is on when you
 - Create a room
 - Join a room

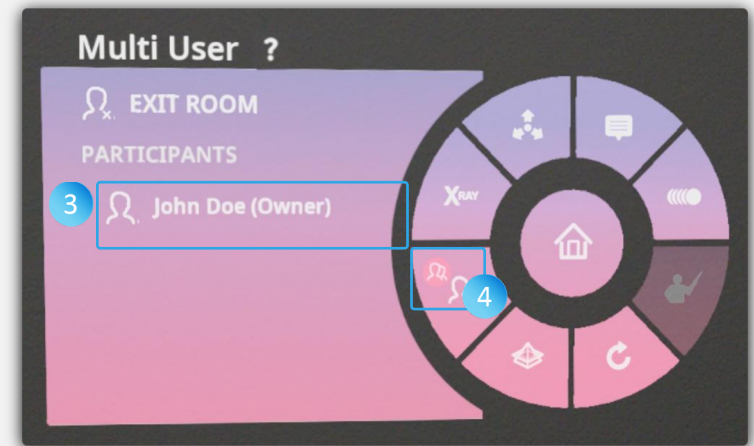

RADIAL MENU INTERACTIONS | MULTI - USER

Single-User Mode after Sign-In

1. Click to create a room
2. Click room list to join it if available

Multi-User Mode after Sign-In

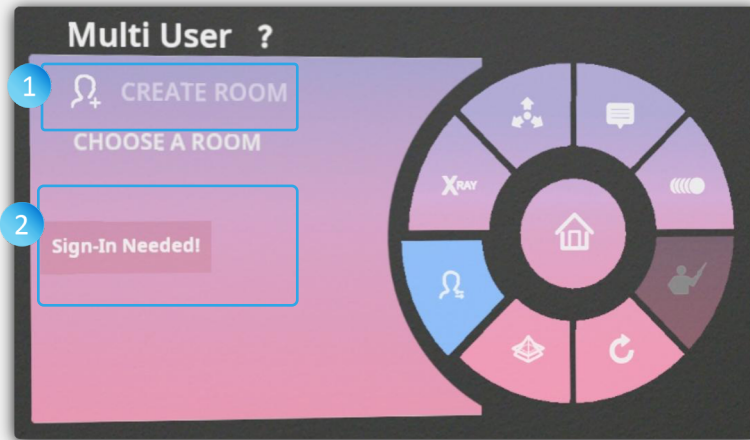

3. You created a room
4. Multi-user indicator is on

NOTE

The lesson will be reset if you create a room.

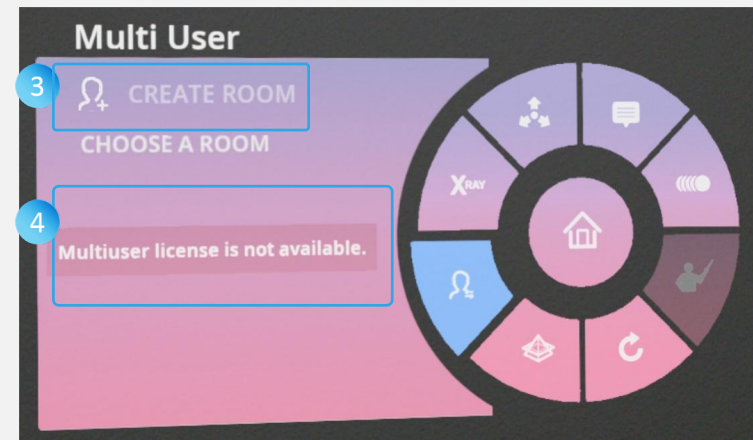

RADIAL MENU INTERACTIONS | MULTI - USER

Single-User Mode before Sign-In

1. Can not create or join a room
2. Message : "Sign-in Needed!"

Single-User Mode without a license

1. Can not create or join a room
2. Message : "Multi-user license is not available"

NOTE

Action : You need to sign in. Please go to lobby and sign in.

NOTE

Action : Please sign in with a new code from institute supporting multi-user.

AVR ML | MULTI-USER | OVERVIEW

AVR FOR MAGIC LEAP supports multi-user collaboration based on the following conditions.

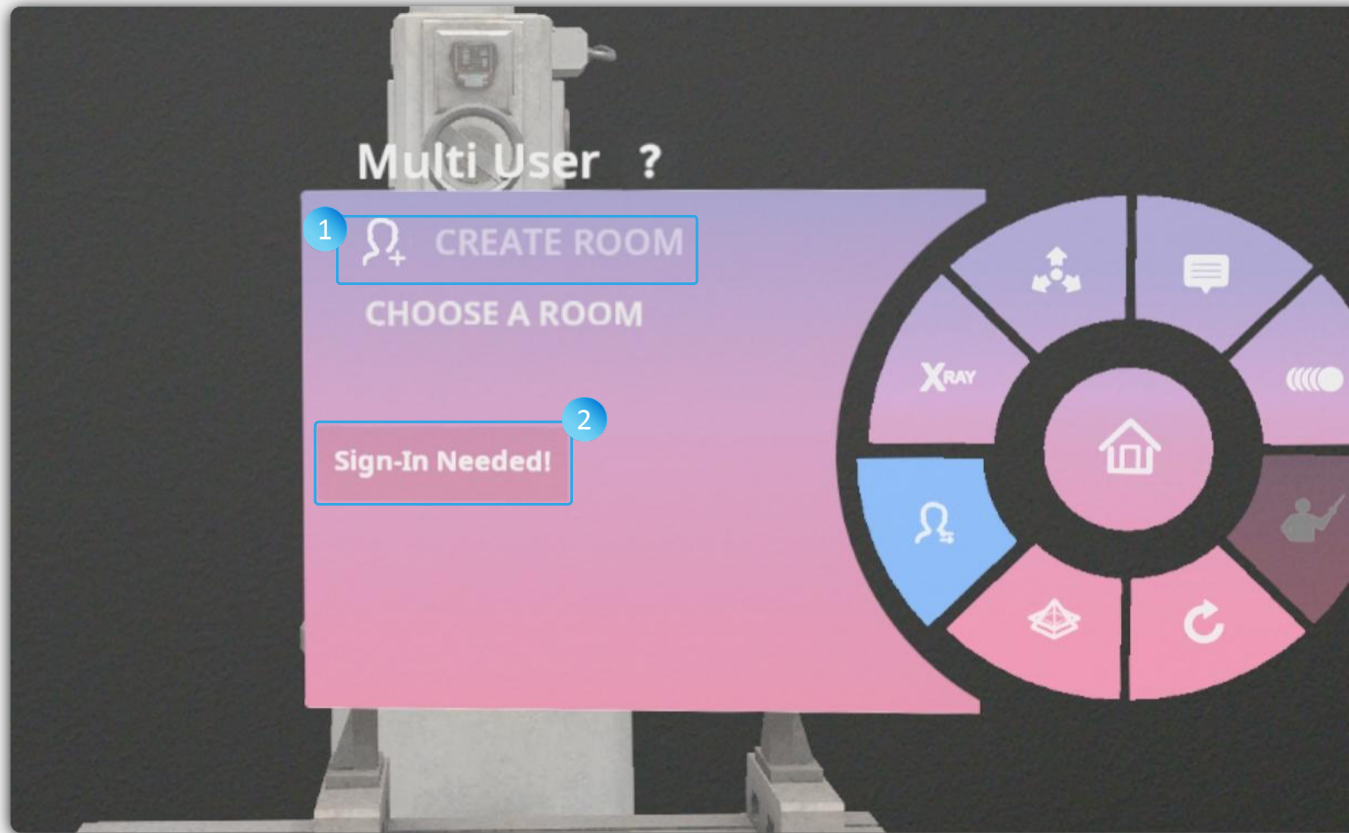

- User must sign in first in order to create or join a room
- A room is available only to the members in the same institute

NOTE When you click 'Cross Section' button, cutting plane is activated
You can move the cutting plane using Controller and press Trigger to lock the cutting plane at a certain point
Cross Section is disabled by pressing Trigger again

OVERVIEW | MULTI-USER | SIGN IN FIRST

Multi-user features are not available until you sign in

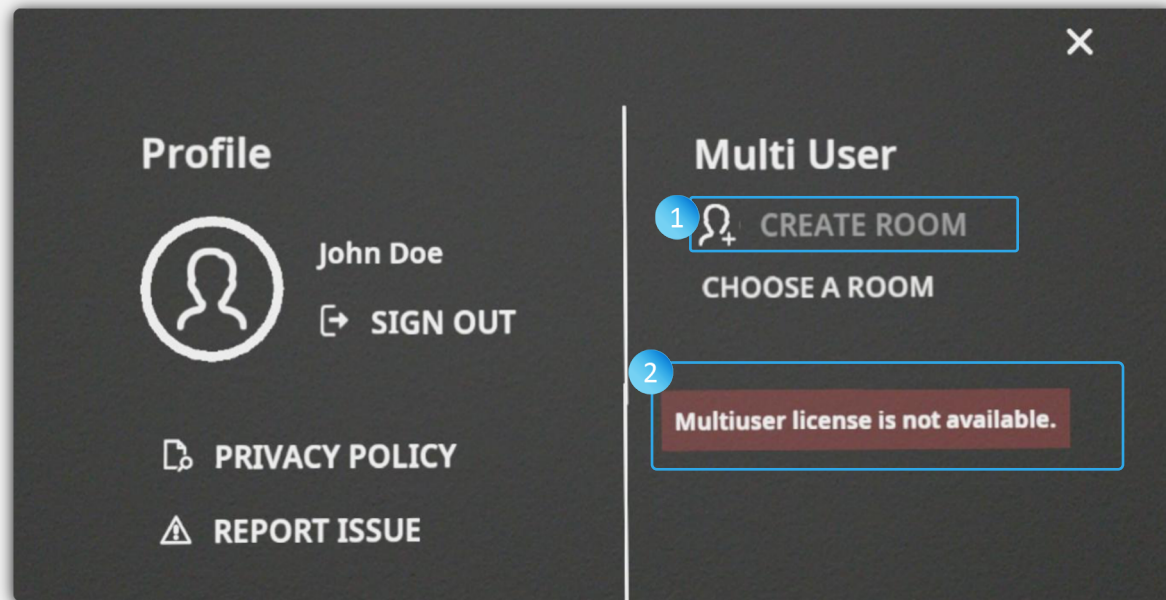

1. Create Room : disabled
2. Error message : "Sign-in Needed"

NOTE

Please go to lobby and click  to sign-in with One-Time Passcode

OVERVIEW | MULTI-USER | INSTITUTE WITH NO LICENSE FOR MULTI-USER

Multi-user features are not available if you sign in from an Institute without an appropriate license for multi-user

1. Create Room : disabled
2. Error message : "Multi-user license is not available"

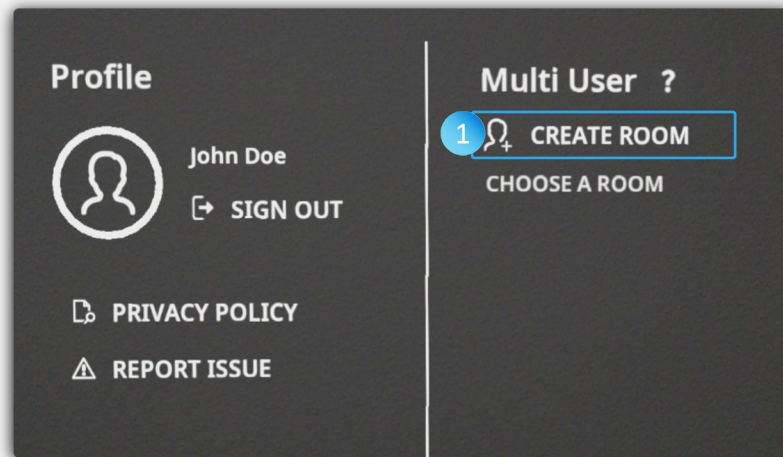

NOTE Please go to lobby and click and sign out. Sign in with OTP of another institute with multi-user license.

CREATE A ROOM | LOBBY | MULTI-USER

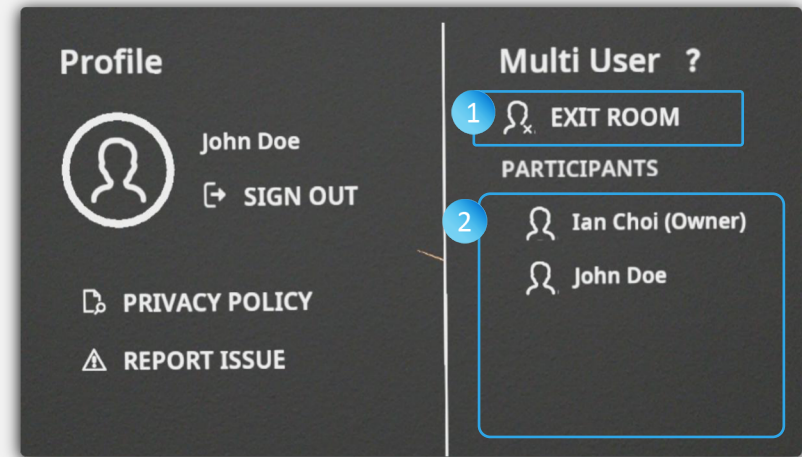

1. You can create a room which can be accessible from others in the same institute.
2. You can create a room at lobby or inside of a lesson

BEFORE CREATING A ROOM

1. Click "CREATE ROOM" button

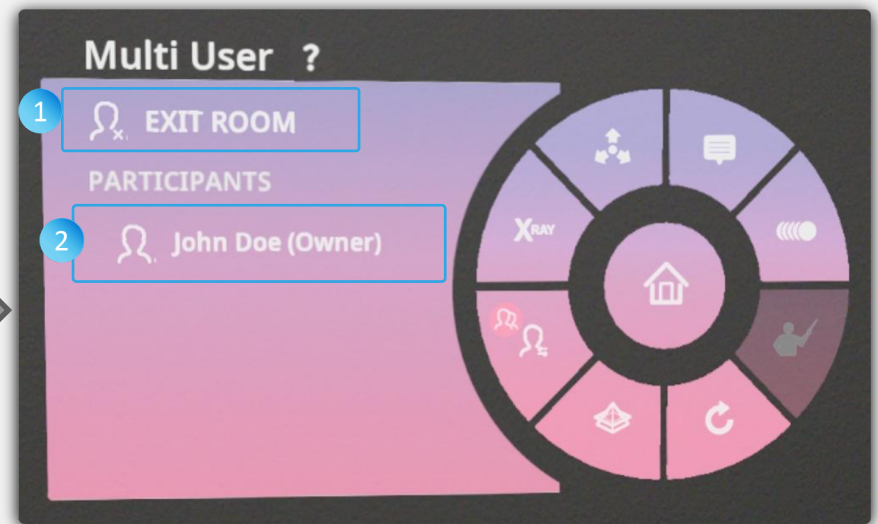

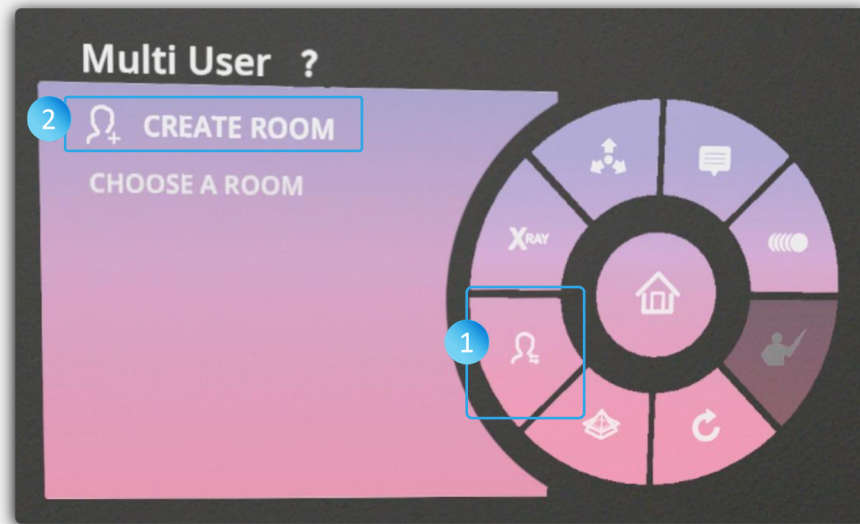

AFTER CREATING A ROOM

1. Exit Room button
2. You are the Owner of the room and other participants will be displayed below

CREATE A ROOM | MULTI-USER | INSIDE LESSON

BEFORE CREATING A ROOM

1. Click Multi-user button of Radial Menu
2. Click "CREATE ROOM" button

AFTER CREATING A ROOM

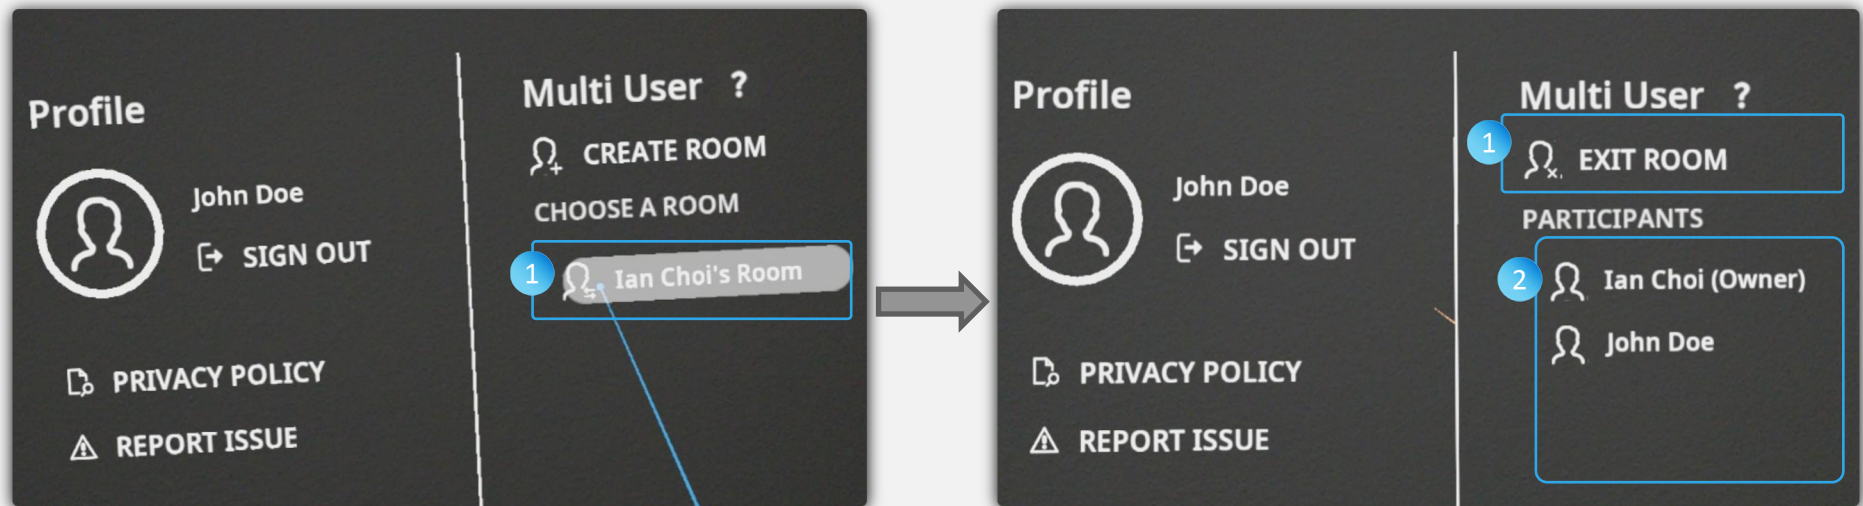

1. Exit Room button
2. You are the Owner of the room

JOIN ROOM | MULTI USER

1. You can join a room which has been created by a member in the same institute.
2. You can join a room at lobby or inside a lesson
3. Each room is named with the owner's name

BEFORE JOINING A ROOM

1. List of room in the same institute. Click one of them to join

AFTER JOINING A ROOM

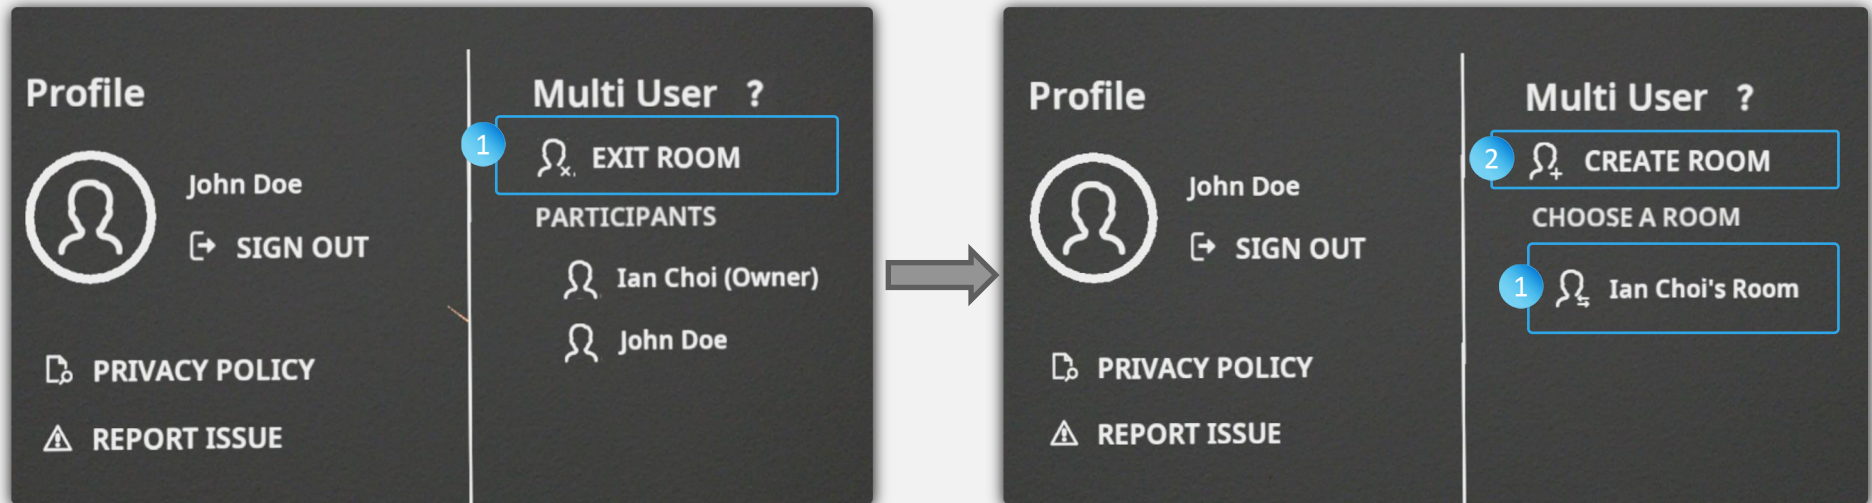

1. Exit Room button
2. List of participants in a room

EXIT ROOM | MULTIUSER | PARTICIPANT

1. You can exit a room at lobby or inside a lesson
2. If room owner exits a room, the room is closed so participants also leave from the room
3. If a participant exits a room, this room still exists until the room owner exits the room.

BEFORE EXITING A ROOM

(John Doe) is in (Ian Choi)'s room.

1. Exit (Ian Choi)'s room

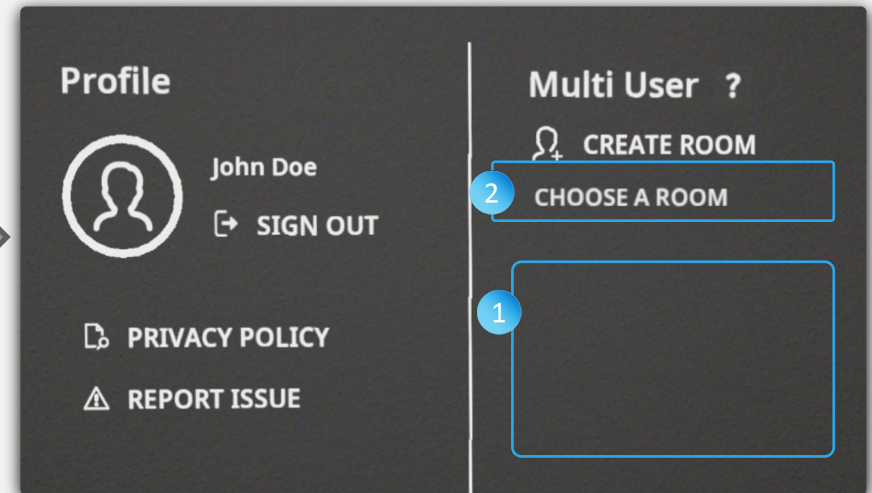

AFTER EXITING A ROOM

(Ian Choi)'s room still exist

(John Doe) can create a room

EXIT ROOM | MULTIUSER | OWNER

BEFORE EXITING A ROOM

(John Doe) created a room and (Ian Choi) joined

1. Exit the room

AFTER EXITING A ROOM

1. (John Doe)'s room is closed and there is no room available
2. (John Doe) can create your room

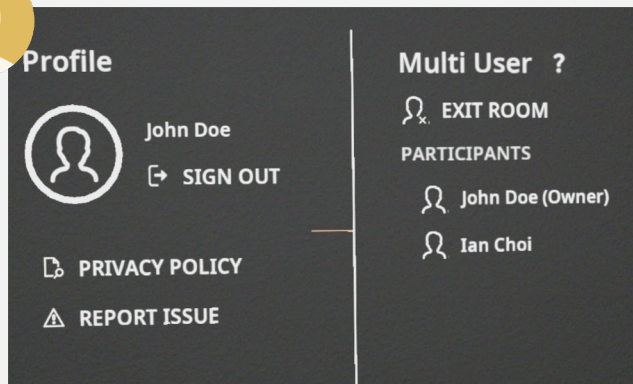

PLAY LESSON | MULTIUSER | LAUNCH A LESSON

Any user of a room can launch a lesson. Once a room is selected, it triggers other users to launch the same lesson.

User #2 at lobby menu

User #1 at lobby menu

1. Select a lesson :
Helicopter
2. Launch the lesson
3. Get event to launch the lesson

4. Multiuser Indicator  is on
5. Your laser beam (BLUE)
6. Other's laser beam (ORANGE)

PLAY LESSON | MULTIUSER | SYNCHRONIZE LESSON POSITION

Sync Lesson Origin At a Same Local Space

OWNER

Place the controller anywhere, and hold on BUMPER for 5 sec

PARTICIPANTS

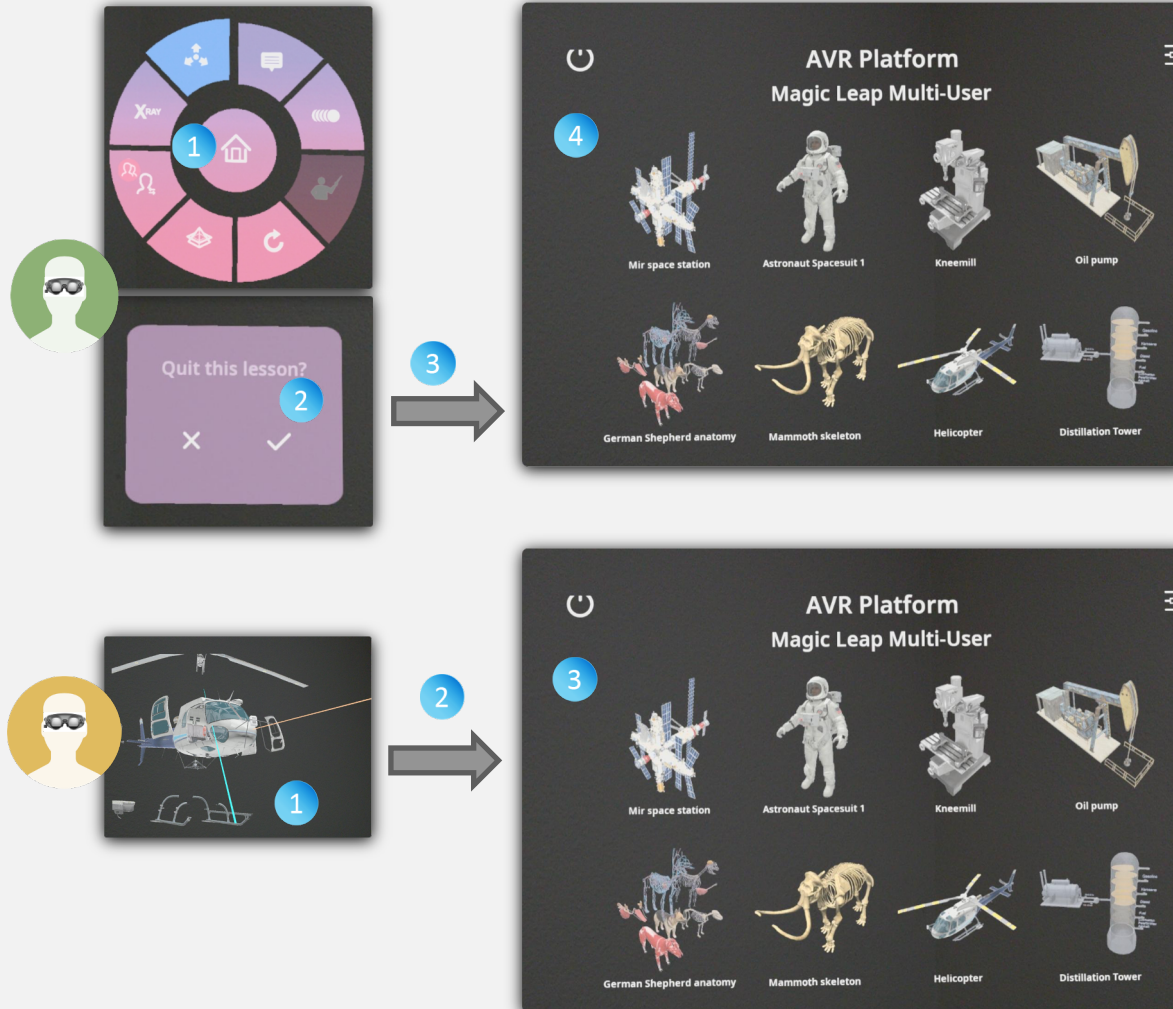

Place the controller at the same position, and hold on BUMPER for 5 sec

SWITCH LESSON | MULTI USER

Any user of a room can leave from a lesson and select another lesson to collaborate.

1. Click Home button
2. Confirm to quit lesson
3. Quit lesson
4. Go to lobby

1. Playing with the lesson
2. Get event and quit lesson
3. Go to lobby
