EON Reality's Roadmap to
Transforming Learning,
Training, and Performing

Plug In for an AI Boost

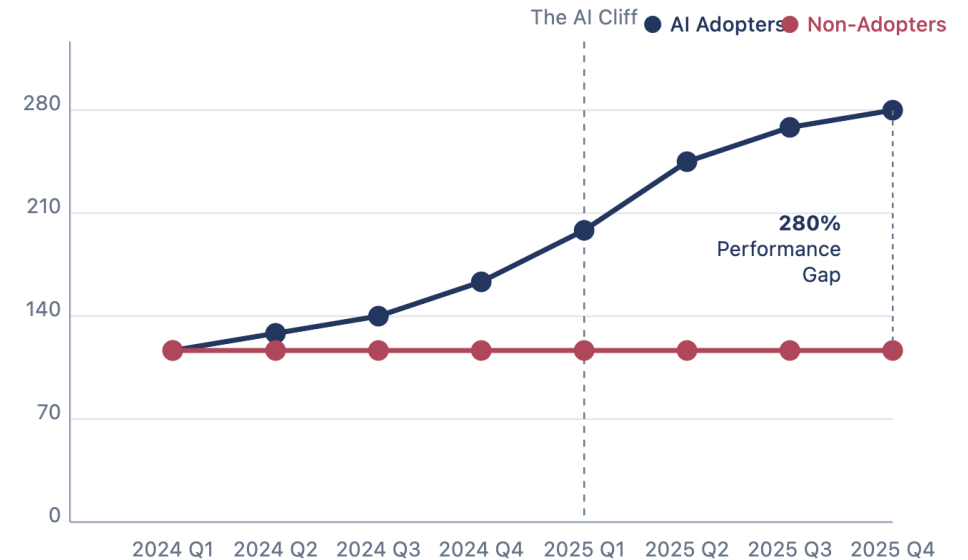

EON's Roadmap to Democratizing Knowledge

The Intelligence Revolution

- AI adds **+100 IQ points** to any user
- Creates **level playing field** regardless of background
- Early adopters gain **280% performance boost**
- **50% of workforce** needs reskilling by 2025
- Knowledge is a **human right**

The Cost of Waiting

Business Performance: AI Adopters vs Non-Adopters
(Indexed to Q1 2024 = 100)

Early 2025: AI adoption creates an unbridgeable performance gap

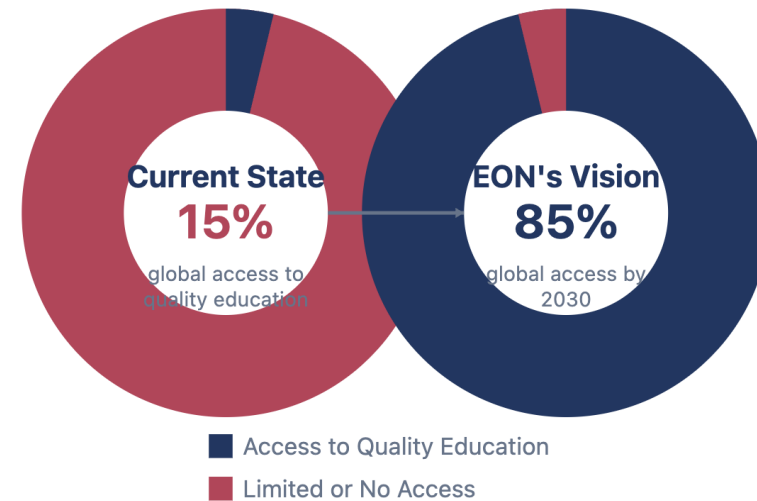

Knowledge as a Human Right

EON's Mission to Democratize Learning

EON's Vision

- Making education **accessible to all** regardless of location
- Breaking **economic barriers** to quality learning
- Meeting WEF goal: **1 billion people** upskilled by 2030
- Using AI+XR to create **equitable opportunity**
- **Bridging the gap** between privileged and underserved

Reaching 1 Billion Learners by 2030

EON's Learn-Train-Perform Roadmap

The Continuous Improvement Cycle

Three-Step Framework

- **LEARN**
AI-guided knowledge acquisition with **4x faster** learning rates
- **TRAIN**
XR simulation with **96% reduction** in training time
- **PERFORM**
Real-world application with **275% increased** confidence
- **REPEAT**
Continuous improvement with **AI feedback loop**

Key benefit: This framework bridges theory and practice, enabling immediate application of knowledge in real-world settings.

The Teach Mentor Interface

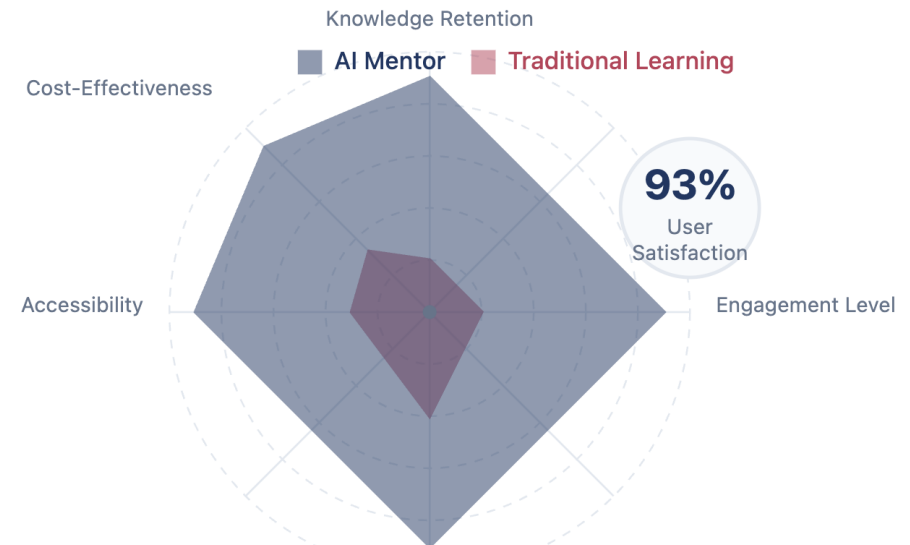

Frictionless AI + XR Gateway to Knowledge

Your Personal Guide

- Natural conversation **replaces complex menus**
- AI maintains **contextual memory** of your goals
- Adapts to your **personal learning style**
- Provides **immediate feedback** and guidance
- Seamlessly connects to **all EON products**

"The Teach Mentor turns learning into a dialogue, not a monologue, making knowledge acquisition as easy as having a conversation."

User Friction Comparison

AI Mentor Performance:

- 90% Knowledge Retention (vs. 20% traditional)
- 85% Engagement Level (vs. 30% traditional)
- 95% Personalization (vs. 15% traditional)

Time-to-Solution:

- Traditional: 45 minutes average
- AI Mentor: 2.5 minutes average

Learning Platforms Integrated

Entrepreneurial Empowerment

From Idea to Launch with AI + XR

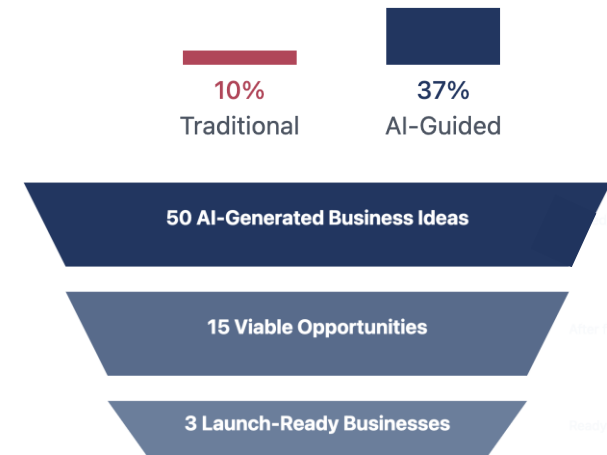

From Idea to Launch

- AI identifies problems aligned with your **personal passion**
- Generates and filters **50+ opportunities** for feasibility
- Creates detailed **product roadmaps** for top ideas
- Guides through **rapid prototyping** and development
- Assists with branding, website, and **go-to-market**

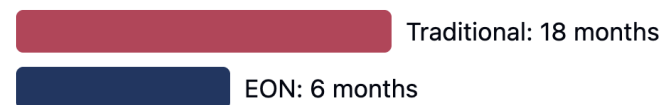

Market Opportunity: \$308B global edtech market by 2030, with AI and XR solutions leading growth

Future Roadmap Vision

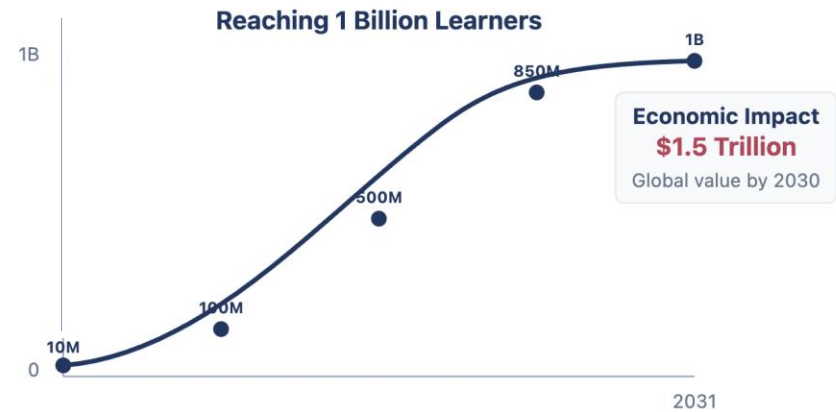

Reaching One Billion Minds

The Future of AI-Enhanced Learning

- **Ubiquitous learning** anywhere, anytime via lightweight AR glasses
- **Hyper-personalized AI tutors** for truly individualized education
- **Dynamic skill adaptation** based on real-time market needs
- **Democratized content creation** with AI-generated XR experiences
- **Global knowledge equity** across geographical and economic divides

Vision: A world where knowledge and opportunity are distributed as freely as air and sunlight, accessible to all as a fundamental human right.
