

The GDP of Learning

EON's Benchmark for Education Efficiency

October 5, 2025

Broken Metrics, Broken Outcomes

- Traditional metrics (grades, credit hours, degrees) fail to measure true learning impact
- Education faces an efficiency crisis - slow mastery, high cost, low outcome correlation
- EON's KTE responds with a data-driven measure of knowledge effectiveness and cost efficiency

Defining KTE: Measurable Learning

$2/2^2$

20

- **Applied Mastery:** percentage of learners achieving job-ready competence
- **Retention Duration:** how long skills remain usable
- **Time to Mastery & Cost Index:** how fast and how efficiently learning occurs
- **KTE condenses complex learning outcomes into one comparable number (like GDP)**

Beyond Grades: Seven Dimensions

- Speed to Mastery | Retention & Recall | Engagement & Focus
- Applied Performance | Cost & Scalability | Equity & Accessibility | Career & Outcome Impact
- Together these define the full spectrum of learning efficiency

How EON Outperforms Every Model

- **Traditional universities: credible but inefficient**
- **Online platforms: scalable but shallow**
- **EON Virtual Campus: immersive, fast, measurable and cost-efficient**
- **Delivers 3x-5x higher KTE across all dimensions**

From Numbers to Proof: Seeing the Leap in KTE

- Radar charts show multidimensional balance across learning dimensions
- Bar charts compress performance into one clear metric
- EON models outperform legacy and online systems by up to 5x efficiency

KTE in Practice: Proven Results

- **Universities:** 4x efficiency in English programs (e.g., UCR)
- **Vocational training:** safe XR labs for nursing, manufacturing and forensics
- **Corporate upskilling:** measurable performance and compliance benchmarking
- **Global equity:** learning access even in low-bandwidth regions

Strategic Impact: Redefining the Market

- KTE elevates EON from technology provider to education standards authority
- Enables policy credibility, employer trust and measurable ROI
- Powers marketing claim: 5x more efficient learning

Path to Adoption: The 3-Horizon Strategy

- **Horizon 1: Publish & baseline audits with early adopters**
- **Horizon 2: Institutionalize with KTE Councils and partner universities**
- **Horizon 3: Scale globally — full Virtual University vision**
- **Establishes EON as the Amazon of education**

The Future Belongs to Those Who Measure

- KTE establishes learning as a measurable economy
- Learners, employers and nations can value education per dollar, per hour, per outcome
- EON's mission: make every learner's success quantifiable, verifiable and global
