

OH WOW JOBS

GLOBAL DIPLOMA ALLIANCE

The world's most advanced immersive career platform is already live in your market. This is your invitation to own it.

9,000+

Certified Career Pathways

80+

Countries Already Live

Free

For Every Student to Discover

THE WORLD HAS CHANGED

The credential economy has shifted. Students have new options. Institutions must decide what to do about it.

85 Million

jobs disrupted by AI by 2027

More than any previous technological shift. The skills required for tomorrow's workforce are being defined right now — not in five years.

\$50,000+

average cost of traditional cert

Students are making life-defining financial commitments before they've experienced the career. Many discover too late that it wasn't right for them.

1 Billion+

adults need reskilling globally

The scale of global workforce transformation cannot be served by physical campuses. The delivery model must change — and it already is.

INTRODUCING OH WOW JOBS

The world's first immersive career discovery and AI-powered skill certification platform. Already live.

Four Stages. One Complete Journey.

1

DISCOVER

Step inside any of 9,000 careers. Cinematic AI video. No account. No cost. Ever.

2

TRAIN

Your personal AI specialist. Voice coaching. XR simulations. Available 24/7.

3

CERTIFY

Written + AI oral exam + XR performance test. Credentials employers trust.

4

GET HIRED

Verified skills matched to live job openings in real time.

Built on 25 Years of XR Innovation

9,000+

Certified career pathways

36M

3D training assets — Genesis

80+

Free

Entry — always, no exceptions

SENTIENT WORLDS

Step inside a career before committing a dollar. A new medium — free, forever.

1

Cinematic AI Narration

Photorealistic AI avatar tells the story of the career — the work, the culture, the day-to-day reality. Film quality. Emotionally real.

2

Live Career Intelligence

Real salary data, employment growth, required skills, and top employers — surfaced in real time as the experience unfolds.

3

Speak to Your AI Mentor

Ask anything. Any question. The AI specialist answers live — not a chatbot, a domain expert for that specific career.

4

3D Environment in Browser

One tap — inside the full 3D work environment. No download. No headset. Works on any device, any connection.

5

AR Preview on Mobile

Place the welding bay, the hospital ward, the cockpit in your living room. Feel the scale. See yourself there.

6

Zero-Friction First Step

Take the first quiz. Watch the progress bar move. The certification journey begins — before spending a single dollar.

100% free. No account required. Available today at eonreality.com/ohwow

TRAIN WITH AN EXPERT. CERTIFY WITH PROOF.

A domain specialist for every career, available 24/7. Credentials that employers can verify.

Your AI Mentor

Domain specialist — not a generic chatbot

9,000 dedicated AI mentors, each trained in depth on their specific field.

Voice-first, 24/7

Natural conversation. Ask anything. Available at 2am, on any device.

Adaptive — knows your gaps

Tracks every session. Focuses on what you haven't mastered yet.

29+ languages

Learn in your own language. Every major global language supported.

Integrity Suite — Triple Verification

The only certification that tests what you can actually DO — not just what you recall.

Written Assessment

AI-adaptive. Dynamically generated questions. Cannot be passed by memorization.

AI Oral Examination

Explain concepts in conversation. The AI probes understanding in real time.

XR Performance Test

Complete real tasks in the XR simulation. Scored on accuracy and process.

Result: A verifiable credential backed by EON Reality + partner universities including UC Riverside.

THE ECONOMICS FOR STUDENTS

Same credential. Same employer recognition. A fraction of the cost. This is already the reality.

Traditional path: **\$12,000 + 18 months** vs OH WOW JOBS: **from \$9/month + weeks** Saving students **99% of the cost**

Career Pathway	Traditional Cost & Time	OH-WOW JOBS	Student Saves
Welding Certification	\$12,000 / 18 months	From \$9/mo · weeks	Over \$11,900
Electrical Technician	\$15,000 / 24 months	From \$9/mo · weeks	Over \$14,900
Healthcare Tech (CNA)	\$8,500 / 12 months	From \$9/mo · weeks	Over \$8,400
Data Analyst	\$4,000 / 6 months	From \$9/mo · weeks	Over \$3,900
Aviation Ground Crew	\$10,000 / 12 months	From \$9/mo · weeks	Over \$9,900

RADICALLY ACCESSIBLE PRICING

Designed so cost is never the reason a student doesn't take the next step.

This platform is already live in your market.

Students in your region can already access 9,000 career certifications for a fraction of what you charge — right now.

If you do nothing

Students choose global credentials over yours.
Enrollment erodes. Revenue bypasses you.
Another institution owns your territory.

If you join the Alliance

Your diploma appears on every qualifying credential.
Your enrollment grows. You expand globally.
You earn revenue from students you never recruited.

The question is not whether this happens. It is whether your institution is on the right side of it.

GLOBAL DIPLOMA ALLIANCE

A curated network of institutions issuing recognized credentials on the world's most advanced learning platform.

What the Global Diploma Alliance Is

The Global Diploma Alliance is EON Reality's curated network of accredited universities, colleges, and professional institutions that provide diploma authority for the OH-WOW JOBS platform's 9,000 career certifications. Member institutions earn a revenue share on every credential issued under their name — globally — with no additional infrastructure, faculty, or marketing required.

Global Reach

Your institution's diploma issued to students across 80+ countries — without a single international office or recruitment campaign.

Passive Revenue

Earn on every credential issued under your name. Volume scales with EON's global platform — your effort stays constant.

Brand Protection

Don't let other institutions capture your students and your territory. Be the name students see on the credential they're already choosing.

THE THREAT IS NOT HYPOTHETICAL

This is a description of what is already happening — not a warning about the future.

01

Students are already choosing away from you

OH-WOW JOBS is live. Students in your region can access 9,000 career certifications from \$9/month. They are choosing these credentials over traditional pathways — right now. This is not a future scenario.

02

Another institution will take your territory

Every country, every region, every market we enter will have a diploma partner. If your institution is not that partner, another institution in your region will be. That institution earns the revenue. That institution owns the relationship. You watch.

03

UC Riverside is already issuing dual diplomas

An American university is co-branding credentials on this platform today. Students globally can already choose a UC Riverside-validated credential. The credentialing authority they associate with your region's careers — that seat is filling. Is it yours?

04

The enrollment decline is accelerating

Universities globally are facing enrollment pressure as learners choose flexible, affordable, outcome-linked alternatives. The institutions that adapt and partner with the platforms driving this shift will grow. Those that wait will compound the decline.

The institutions that move first own the territory. Territory, once taken, is not easily recovered.

THE OPPORTUNITY

Enrollment growth. Passive revenue. Geographic expansion. Brand preservation. All from one partnership.

25–30% Enrollment Growth

Early results from partner institutions show significant enrollment increases when they offer the hybrid OH-WOW JOBS pathway. Students who discover careers on the platform then select the affiliated institution for their diploma — converting free users into enrolled students.

Reach Students You Never Could

A university in New Delhi can now enroll students across all of India — and beyond. A university in Nairobi can issue credentials to students across sub-Saharan Africa. No branch campuses. No international offices. Just your name on a credential students are choosing.

Revenue Without Infrastructure

Alliance members earn a revenue share on every diploma issued under their name. The platform acquires the students. EON runs the infrastructure. You provide the credential authority and earn accordingly — with no incremental operating cost.

Build Your Own Courses Too

Beyond certifying EON's 9,000 pathways, Alliance members can develop proprietary courses on our platform. Your unique programs — MBA modules, professional certifications, executive education — delivered globally at a fraction of traditional delivery cost.

TWO WAYS TO PARTNER

Start defensive. Scale aggressively. Or do both from day one.

OPTION A

Certify EON's 9,000 Pathways

The Defensive Strategy — Protect Your Territory

- Your institution validates and endorses EON's curriculum
- Students elect to receive your diploma alongside the EON certificate
- You earn a revenue share on every diploma issued — globally
- Zero curriculum development required
- Zero infrastructure investment
- Available in 30–45 days from signing

OPTION B

Build Your Own Custom Virtual Campus

The Aggressive Strategy — Own the Market

- Build proprietary courses on EON's Genesis XR infrastructure
- Deploy hybrid delivery — campus + immersive remote learning
- Expand regionally and nationally without physical expansion
- Larger revenue share on custom content you create
- Co-sell through EON's global distribution network
- Your institution becomes a global content publisher

THE SCALE OPPORTUNITY

India. Africa. Southeast Asia. Latin America. 3 billion people who need exactly what this platform delivers.

India alone: **43 million** enrolled students. Sub-Saharan Africa: **10 million+** underserved. Southeast Asia: **fastest-growing credential market on earth**

India

43M students

The World's Largest Credential Market

43 million enrolled students. Rapidly growing middle class hungry for recognized international credentials. Deep smartphone penetration. The EON platform's voice-first, mobile-optimized delivery is purpose-built for this market. An Alliance partner here earns on volume that dwarfs any domestic program.

Sub-Saharan Africa

60% under 25

The World's Youngest Workforce

60% of Africa's population is under 25. The credential gap is enormous. Traditional higher education cannot scale fast enough. EON already operates in multiple African countries. An Alliance partner providing diploma authority for this market earns passive revenue from a continent transforming in real time.

Southeast Asia + LatAm

700M+ market

Fastest Growing Middle Class

Vietnam, Indonesia, Brazil, Colombia — massive populations with surging demand for internationally recognized credentials and technical skills. These markets are choosing digital-first, affordable, outcome-linked education. The institution whose diploma appears on OH-WOW JOBS credentials owns the recognition.

HOW YOUR REVENUE WORKS

Simple. Transparent. Scales with global volume.

Revenue Structure by Partnership Type

Partnership Type	What You Provide	Your Share	EON's Share
Certify EON's 9,000 pathways	Academic endorsement + diploma authority	Meaningful	Majority
Custom Virtual Campus	Your courses + faculty + academic IP	Majority	Platform fee
Custom — sold via EON network	Your content distributed globally by EON	Substantial	Distribution fee

BEYOND YOUR WALLS: THE HYBRID MODEL

How a regional university becomes a national — then global — institution without building a single new campus.

Traditional Model

Physical campus constraint

Student capacity limited by classrooms, labs, and faculty.

Regional students only

Enrollment restricted to students who can attend in person.

High fixed costs

Facilities, staff, and infrastructure regardless of enrollment.

Slow to adapt curricula

New programs take years to develop and accredit.

Single revenue stream

Tuition fees from enrolled students. Limited upside.

Hybrid Alliance Model

National — then global — reach

Students across your country access your diploma. African students. Asian students.

Campus becomes anchor, not limit

Students visit 1–2 times. Immersive remote delivery fills the gap.

Marginal cost near zero

Additional students cost almost nothing. Revenue scales with volume.

9,000 programs, live immediately

Curriculum already built. Validation takes weeks, not years.

Multiple revenue streams

Diploma fees + custom course revenue + platform distribution.

WHO IS ALREADY IN THE NETWORK

EON Reality has 25 years of institutional partnerships across 80+ countries.

Current Credential Authority:

EON Reality certifications are currently backed by 25 years of accreditation authority and a co-diploma partnership with the University of California Riverside Extension — an internationally recognized American university institution issuing dual diplomas on the platform today.

What Global Diploma Alliance members gain:

First-mover advantage in your region

Alliance territories are allocated exclusively. The first institution in a given market owns that market's diploma relationship.

Co-branding with a growing global network

Your diploma appears alongside EON Reality credentials in every market where the platform operates — building recognition globally.

A seat at the table as the market grows

Early partners shape how the Alliance evolves — course validation standards, regional priorities, and expansion decisions.

Dedicated partnership support from EON

Integration, onboarding, co-marketing, and technical support. We invest in making every Alliance partner successful.

WHAT HAPPENS NEXT

From conversation to live partnership in weeks — not years.

1

Partnership Conversation

This week

One call with EON's partnership team. We model your institution's specific opportunity: market size, projected credential volume, revenue scenario, and territory exclusivity.

2

Heads of Agreement

Week 1-2

A simple one-page term sheet covering partnership type, revenue arrangement, territory, and timeline. No lengthy procurement cycle. No complex technology evaluation.

3

Validation & Onboarding

Week 2-4

EON's academic team works with yours to validate the curriculum pathways under your institution's standards. Co-branding setup. Dashboard access. Integration complete.

4

Live in Your Market

Week 4-6

Your institution's diploma appears on OH-WOW JOBS credentials in your territory. Students begin selecting your validation. Revenue begins accruing from day one.

Alliance territories are allocated on a first-come basis. Early partners receive preferred terms and exclusive market positioning.

THE CREDENTIAL ECONOMY HAS ALREADY SHIFTED.

The institutions that thrive in the next decade will be those that recognize this moment — and move.

OH-WOW JOBS — Free to discover. From \$1.99 to certify.

Global Diploma Alliance — Your name on every credential.

Your territory. Your revenue. Your future.
