The Alarm Has Sounded

What Morgan Stanley's 2026 Report Really Means for Humanity

THE INTELLIGENCE EXPLOSION

"A massive AI breakthrough is coming in the first half of 2026 — and most of the world isn't ready for it."

— Morgan Stanley Research Report, March 2026

The top 5 AI labs are applying 10× the compute to their next models.

Scaling laws hold → models will be ~2× as capable.

GPT-5.4 already scores 83% on human-expert benchmark tasks.
