THE STORM IS HERE.

ARE YOU PREPARED?

AI Is Eliminating White-Collar Jobs — Faster Than Anyone Predicted

A Strategic Brief for Universities · Students · Governments

75%
of white-collar tasks automatable today
Anthropic AI Exposure Index, 2026

50%
of entry-level jobs at risk in 5 years
Dario Amodei, Anthropic CEO

10-20%
projected US unemployment from AI disruption
Axios / Anthropic, 2025

eon reality

THE EVIDENCE

75%

of computer programmer tasks are automatable by AI right now

77%

of Gen Z say automation-resistance is critical when choosing a career

50%

of entry-level white-collar jobs could disappear within 5 years

12M

occupational transitions needed in the US by 2030

16%

drop in hiring of workers aged 22–25 in AI-exposed fields

40%+

of workers will need significant upskilling by 2030 — IMF

"A Great Recession for white-collar workers is absolutely possible." — Anthropic Research Paper, March 2026
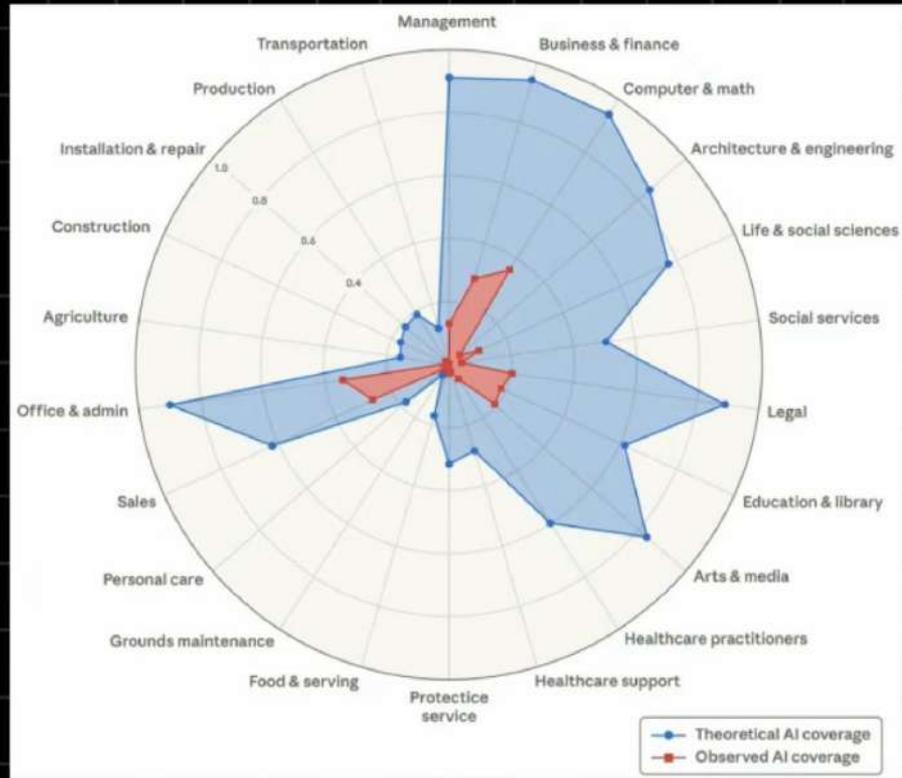

THE DANGER ZONES

Jobs Most Exposed to AI Automation — Your Degree May Be Pointing Here

Job Category	Value
Journalism / Writing	48
Management Consulting	52
Customer Service	55
Legal / Paralegal	58
Financial Analysts	62
Data Entry / Admin	68
Computer Programmers	75

Anthropic Reveals Potential AI Job Disruption vs. Real AI Use

Least exposed AI jobs:

- Cooks
- Mechanics
- Lifeguards
- Bartenders
- Dishwashers
- Hospitality

Radar chart comparing Theoretical AI coverage and Observed AI coverage across occupational categories: Management, Business & finance, Computer & math, Architecture & engineering, Life & social sciences, Social services, Legal, Education & library, Arts & media, Healthcare practitioners, Healthcare support, Protective service, Food & serving, Grounds maintenance, Personal care, Sales, Office & admin, Agriculture, Construction, Installation & repair, Production, Transportation.

Legend: Theoretical AI coverage; Observed AI coverage

Universities

Adapt. Or Watch Your Students Walk Out the Door — Forever.

THE UNIVERSITY CRISIS

THE BRUTAL REALITY

- 77% of Gen Z require automation-resistant careers before choosing a path

- Degree programs designed in 2005 are being delivered in 2026

- The jobs those degrees were built to access are disappearing

- A 16% hiring drop for graduates aged 22–25 has already begun

- If your institution can't show a clear path from enrollment to employment — students will go elsewhere

THE QUESTION STUDENTS ARE ASKING

"Can you show me a clear, data-backed path from enrollment to a job AI cannot take?"

If your answer is 'no' — or 'not yet' — you are already behind.

The institutions that offer courses + job tools + income tools + a global marketplace will win the next generation. The ones that don't will watch enrollment collapse.

WHAT EON DELIVERS TO UNIVERSITIES

9,000+ AI-Resistant Pathways

EON Career Compass maps certificate programs to jobs with low AI exposure — healthcare, trades, creative industries, social work.

Immersive 3D Skill Mastery

EON Genesis delivers simulation-based training. Not slides. Not lectures. Learn by doing — in 3D.

Direct Job Placement Tools

Career navigation built to move a student from certificate to employment — with real employer connections.

Venture Builder + Entrepreneur School

Students build real products and businesses — not theoretical case studies.

Global Marketplace

Students sell what they build globally. Income before graduation. Not debt while waiting.

90-Day Entrepreneur Program

One academic term. One structured accelerator. Market-ready professional — with revenue.

THE CLASS OF 2026 IS WALKING INTO A TRAP

2022 — ChatGPT launches. 'It's just a tool.'

2023 — AI adoption accelerates. Entry-level hiring begins to slow.

2024 — 16% drop in hiring for workers aged 22–25 in exposed fields.

2025 — Anthropic CEO warns: 50% of entry-level white-collar jobs at risk within 5 years.

2026 — AI Exposure Index launched. 75% of programmer tasks automatable TODAY.

2028? — Class of 2026 graduates. The jobs they trained for — may not exist.

THE EON STUDENT STACK — FIVE THINGS NO UNIVERSITY OFFERS TOGETHER

01
DIRECTION

9,000+ skill pathways ranked by AI-resistance. Know exactly which skills will still matter in 5 years.

02
MASTERY

Immersive 3D hands-on training. Not slides. Not lectures. Simulation-based skill mastery via EON Genesis.

03
EMPLOYMENT

Real job connection tools via EON Career Compass. From certificate to employment — built to move you.

04
BUSINESS

EON Venture Builder — build a real product or service as a student. Not a case study. A real business.

05
INCOME

Sell what you build on a global marketplace. Generate income before you graduate.

Wrapped in the EON 90-Day Entrepreneur Program — from enrollment to market-ready professional in one academic term.

THE NATIONAL COST OF DOING NOTHING

12 Million

occupational transitions needed in the US by 2030

McKinsey / Urban Institute

10–20%

projected US unemployment from AI disruption

Dario Amodei, Anthropic CEO

40%+

of all workers need significant reskilling by 2030

IMF, 2025

2nd to Last

US rank among OECD nations on workforce development spending (0.1% of GDP)

Harvard Project on Workforce, 2025

Traditional unemployment insurance was built for temporary job loss. AI displacement is not temporary.

TWO PATHS. ONE CHOICE.

PAY PEOPLE TO WAIT

- Unemployment benefits — paid indefinitely, no outcome

- Citizens become dependents of the state

- No skill development. No income. Social instability grows.

- Current safety net not designed for structural, permanent displacement

- Political backlash as AI unemployment becomes a campaign issue by 2028

vs.

INVEST IN EON

- One platform investment — scalable to millions of citizens

- Citizens become entrepreneurs and taxpayers

- Skills, jobs, businesses, global marketplace — all in one platform

- 9,000+ AI-resistant pathways — deployed nationally, immediately

- EON already deployed in 80+ countries, 4,400+ institutions

THE EON PLATFORM — THE FULL STACK ANSWER

COURSES — 9,000+ AI-resistant pathways via EON Career Compass

MASTERY TOOLS — Immersive 3D simulation training via EON Genesis

JOB TOOLS — Direct placement & career navigation — hire-ready graduates

BUILD TOOLS — Product & business creation via EON Venture Builder

GLOBAL MARKET — Sell globally, earn immediately — integrated marketplace

All five pillars. One platform. Deployable to universities, individuals, and nations — today.

EON REALITY — PROVEN AT GLOBAL SCALE

25 Years
of immersive learning innovation

80+
countries with active deployments

4,400+
institutional customers worldwide

136M+
platform downloads globally

9,000+
AI-resistant skill pathways mapped

90 Days
from enrollment to market-ready entrepreneur

The diploma is not the destination.

The destination is a skill, a job, an income, and a business.

EON delivers all four.

The storm is here. EON is the shelter.

The only question is whether you build it before the rain — or after.
