# Three doors lead somewhere.

One choice doesn't. AI is splitting every workforce into four destinations — three are paths, one is a stall.

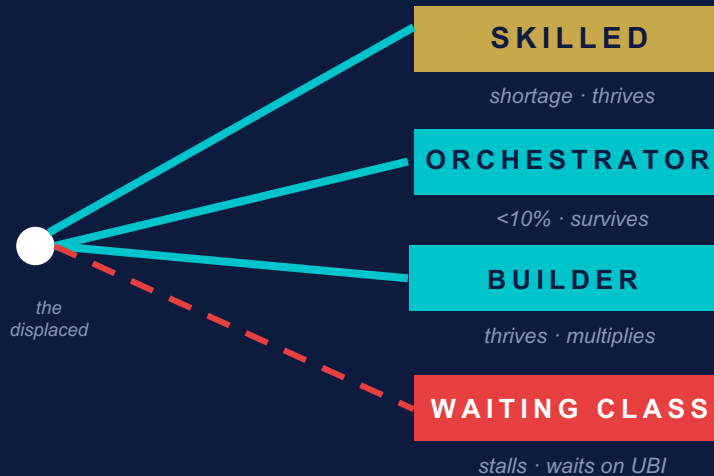

*Squeeze. Fork. Tail.*

## 01 THE SQUEEZE

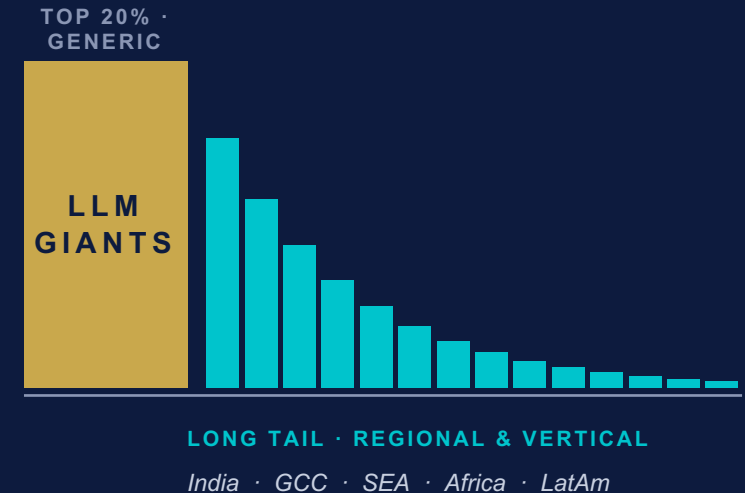

**88% of roles** collapse under AI pressure.

## 02 THE FORK

**Three paths thrive.** One destination stalls.

## 03 THE TAIL

**Elephants can't reach the tail. Builders can.**

# Three doors. One platform.

Whoever you are, whichever direction you're running — there's a door with your name on it.

## DOOR 1

### SKILLED

*The people who build what AI can't.*

#### WHO

Trades · healthcare · energy · data centers · infrastructure

**\$50K–\$230K / yr**

## DOOR 2

### ORCHESTRATOR

*The white-collar workers who direct AI.*

#### WHO

Managers · analysts · consultants · knowledge roles at every level

#### THE INSIGHT

Level 4–5 fluency gets the raise. 10 X productivity, harness 250+ agents. Level 1–3 gets replaced.

**\$80K–\$250K+ / yr**

## DOOR 3

### BUILDER

*The people who build new things with AI.*

#### WHO

Founders externally · intrapreneurs internally · both run the same playbook

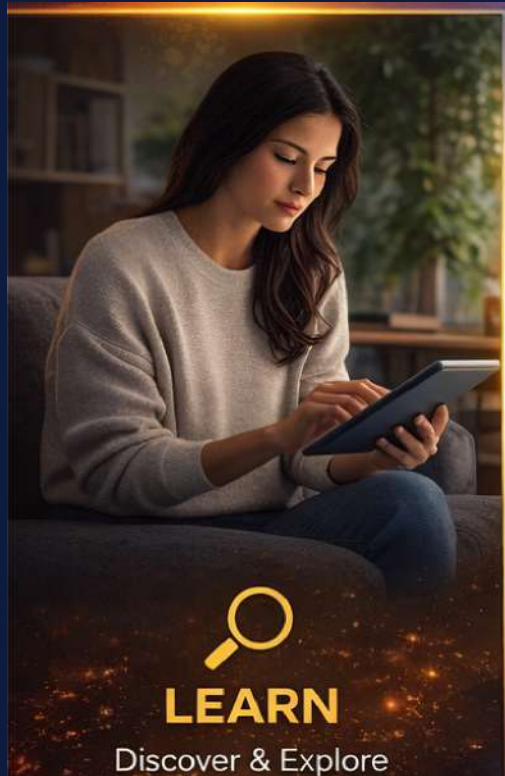

#### THE INSIGHT

Zero barriers left. The tail is wide open.

**\$100K–\$1M+ / yr**
